

HERE ARE THE BOARD OF DIRECTORS AND OFFICERS OF THE Y-12 EMPLOYEES CREDIT UNION for 1957. From left are Gordon Fielden, Maintenance Planning, historian for records and charts; Jack Fisher, Security, assistant treasurer; C. V. Ketron, ORNL, vice president; Lorena Causey, treasurer; Paul Blakely, ORNL, president; Dave Smith, Colex Operations, secretary; and W. R. McGill, Fire Department, educational committee.

Lundquist Appointed UCNC Vice President

New Official Veteran Of Colorado Operations

Adolph Q. Lundquist has been appointed a Vice-President of Union Carbide Nuclear Company, a Division of Union Carbide and Carbon Corporation, it has been announced by Lyman A. Bliss, President of this Division of the Corporation.

He joined Union Carbide in 1942 as Assistant Superintendent of Uranium, Col., operations of United States Vanadium Corporation, the Division of Union Carbide that was succeeded by Union Carbide Nuclear Company. He was transferred to the Rifle, Col., plant of the Company in 1945 to become Superintendent of operations there and in 1952 was appointed General Superintendent of all mills in Colorado. He was appointed General Manager of Colorado Plateau operations at Grand Junction in 1955. The new UCNC vice-president from the beginning has been connected with the Corporation's activities in the production of high-grade uranium concentrate in which the Corporation has set the pace in the industry.

Lundquist was born in Canon City, Col. He received the degree of Bachelor of Science in Mechanical Engineering from the University of Colorado in 1930.

TV Program Will Describe Library, Jaycee Activities

An interesting television show on the activities of the Oak Ridge Public Library and the Junior Chamber of Commerce will be presented at 6:15 o'clock tonight, Wednesday, January 23, over Knoxville Television Station WBIR, Channel 10. The 30-minute program is sponsored by the Oak Ridge Council of Civic Clubs and is one of a series describing work of various organizations of the city for the entertainment and instruction of the TV viewing public as well as advertising the city.

MEMBERS OF THE CREDIT COMMITTEE AND ALTERNATES are shown above. From left are T. J. Stephens, Plant Records; Paul Griffin, ORNL; Chairman M. M. Dickens, F Mechanical Operations; C. M. West, Health Physics; and W. E. Davis, Security. All were elected at the membership meeting. Holdover member A. L. Conte, Project Engineering, is shown in the inserted picture.

Credit Union Statements To Be Ready February 11

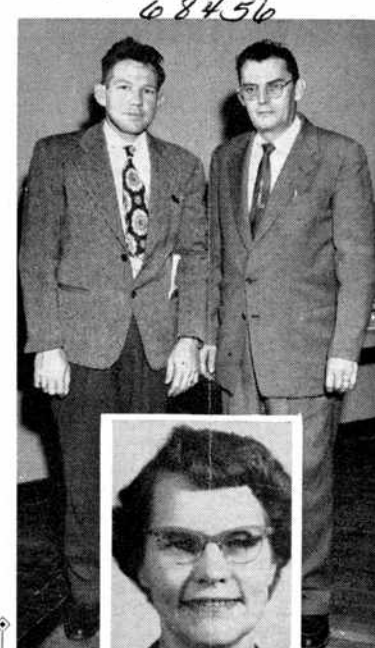

Statements of share holding and loan accounts for members of the Y-12 Employees Federal Credit Union will be available to all members of the organization on Monday, February 11, it was announced last week by Mrs. Lorena Causey, treasurer of the Credit Union. The statements will give the status of the accounts as of December 31, 1956, and also credit on the share accounts of the 4.2 per cent dividend declared by the membership for 1956.

Members are urged to pick up their statements as soon after February 11 as possible at the Credit Union Office, North Portal, so that it will not be necessary to mail them to homes of members.

Friday Will Be Deadline For Educational Assistance

Any eligible Y-12er wishing to take advantage of Union Carbide Educational Assistance Plan for approved courses in the winter quarter must have their applications in to the Y-12 Training Department not later than Friday of this week, January 25.

Prospective applicants who wish further information on provisions of the Educational Assistance Plan or who want to apply for the Plan benefits are asked to communicate with Ralph Pearson or other members of the Training Department, Bldg. 9704-2, plant phone 7751.

SUPERVISORY COMMITTEE members are John Lay, SS Control, left; and Chairman W. L. Coggins with Phyllis Johnson, Tabulation Services, pictured in insert.

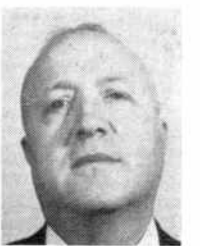

APPETIZING CONCOCTIONS ON SPECIAL LUNCH MENUS

Appetizing concoctions will be offered patrons of the Y-12 Cafeteria Special Lunches tomorrow, Thursday, January 24; and next Tuesday, January 29. Hungarian goulash will be the entree on the Special Lunch tomorrow and corned beef hash will be the main dish next Tuesday.

Two Y-12ers Are Honored For Work By Civic And City Organizations

Flack Reelected Chamber Of Commerce President; Bissell Picked As Chairman Of Ridge Town Council

Two Y-12ers who long have been associated with civic progress in Oak Ridge last week were honored by fellow members of two organizations by being elected to the highest posts in those groups. They were George W. Flack, Y-12 Superintendent of Industrial Relations, who was reelected president of the Oak Ridge Chamber of Commerce by its board of directors; and Alvin K. Bissell, of the accountability group of the SS Control Department, selected by fellow members as chairman of the Oak Ridge Town Council.

George W. Flack A. K. Bissell

Other UCNC Men Honored

The two organizations also honored two other Union Carbide Nuclear Company employees in Oak Ridge. Thomas E. Lane, General Superintendent of Industrial Relations for UCNC in Oak Ridge and Paducah, Ky., was reelected to the board of directors of the Chamber of Commerce. The Town Council also elected William E. Williams to the body. He is on the staff of Superintendent Lane at the K-25 Plant.

Superintendent Flack was elected president of the Chamber of Commerce last year to fill out the unexpired term of Ross Charles, who left the city. Under the Flack regime, the chamber membership has grown to 162 member firms, double that of a year ago.

Flack With UCC Since 1943

Flack has been in the Union Carbide and Carbon Corporation organization since 1943, when he joined UCC in New York to process technical personnel men at Columbia University for jobs at the K-25 Plant in Oak Ridge. He was permanently assigned to Oak Ridge on January 22, 1944, as head of the K-25 Training Department. He later became Personnel Superintendent and later assistant to the Industrial Relations Superintendent.

He succeeded H. O. Ramey as Y-12 Superintendent of Industrial Relations on July 1, 1952, after having been assigned here several months previously.

Since coming to Oak Ridge Flack has been active in a wide variety of civic affairs, taking particular interest in the youth activities of the city. The Boy Scout program is one of his pet interests and he served as district chairman for the Boy Scouts for some time. He also has been chairman of the Oak Ridge Chapter of the American Red Cross and also was a member of the Kiwanis Club. He and his family are members of the First Presbyterian Church.

Bissell Proud Of Youth Work

Interests of the new chairman of the Town Council greatly parallel those of Flack. Bissell is rightfully proud of his activities in youth welfare work in Oak Ridge in his early days in Oak Ridge—he came to the city and went to work in Y-12 on June 28, 1943. He has been a member of the Oak Ridge Parents Advisory Council, equivalent to the board of education in other cities, for nine years and now is a member of the PAC steering committee. In 1944 he helped organize the Oak Ridge Junior Chamber of Commerce and also has been active in Red Cross

Parking For Visitors Moved To North Portal

Southwest Corner Spot Allocated For Purpose

Parking space for visitors and employment applicants to the Y-12 Plant will be moved from the Central Portal Parking Lot to the southwest corner of the newly paved portion of the North Portal Parking Lot tomorrow, Thursday, January 24. The move will provide more parking room for Y-12 employees at the Central Parking Lot and at the same time offer convenient parking space for visitors in the new location.

10 Spaces Are Reserved

A total of 10 spaces in the right hand lane of parking in the new portion of the North Portal Parking Lot will be provided for the visitor and employee applicants parking, beginning at the extreme lower end of the lot. These spaces will be marked with yellow lines and Y-12ers are requested not to use these parking areas.

The work of painting the lines and removing present directional signs for visitors and employee applicants from the Central to the North lots will be done by Management Services crews.

Ample Parking Room Left

The moving of the visitor and employee applicants parking space will not inconvenience Y-12ers, as there is ample parking space at the North Portal Parking Lot at present.

DUCKS ARE PERSISTENT

At least part of the success of Tennessee waterfowl hunters can be credited to the persistence of ducks. Observation by Ducks Unlimited, Inc., show that the ducks want to bring off a brood of young so strongly that they keep on trying throughout the season, even if eggs laid earlier are destroyed by weather, agricultural operations or predators. The renealing helps the duck population.

SAFETY SCOREBOARD

The Y-12 Plant Has Operated Eight Days Or 227,058 Man-Hours (Unofficial Estimate) Without A Disabling Injury Through January 20

ACS Analytical Group To Hear Two Speakers

Meeting Is Scheduled
January 31 In Ridge

The Analytical Group of the East Tennessee Section of the American Chemical Society will hold its first meeting of 1957 at 8 o'clock Thursday night, January 31, in the cafeteria of the Robertsville Junior High School in Oak Ridge. Two speakers have been scheduled to address the group with Dr. Henry Freiser and Dr. George Morrison sharing time in discussing "Analytical Solvent Extraction."

Dr. Freiser is a native of New York City, receiving his bachelor's degree from the City College of New York in 1941. His graduate work was done at Duke University, where he received his master's degree in 1942 and his Ph. D. degree in physical chemistry in 1944. After serving as a research fellow at Mellon Institute in Pittsburgh he became instructor of analytical chemistry at the University of Pittsburgh in 1946, where he now is an associate professor.

Like Dr. Freiser, Dr. Morrison also is a native New York City man and received his bachelor's degree from Brooklyn College in 1942. After graduate work at Ohio State University and Princeton he received his master's and Ph. D. degrees from the latter university in 1948. While at Princeton he was connected with the Manhattan Project. He now is head of the inorganic research laboratory for Sylvania Electric Products, where he has been since 1951.

Both speakers are co-authors of a forthcoming book on solvent extractions.

CELLOPHANE BIG BUSINESS

The United States cellophane industry produces about 250,000,000 pounds per year and the product has given birth to more than 300 companies that convert it into such articles as tape, bags, tubes and other items.

"WHAT'S IN THIS BOX, I wonder?" probably are the thoughts of little Lindsey Alford, "going on three" as she sat under the Yule tree on Christmas Eve. This beautiful picture was made by Dave Alford, Beta Two, proud father of the charming little model, using only room light and light from the tree for illumination.

Babies—it's COLD outside—so why don't all you good readers come through the Green Door of Room 228, Bldg. 9704-2, and watch the Colyum Conductor pounditout, fully equipped with fur lined gloves?

FINANCE AND MATERIALS

Production Inspection is congratulating C. C. Sinclair, new member of the Proud Pop's Club, qualifying with the arrival of Douglas Wayne recently, weighing six pounds, 10 ounces . . . C. G. Clifton wisely chose his own home sweet home for vacationing purposes . . . C. T. Perry was welcomed to the department as a replacement for G. H. Fulmer, transferred elsewhere.

SHIFT SUPERINTENDENTS AND GENERAL UTILITIES

E. R. Bailey, General Utilities, is vacationing around home in Oliver Springs for two weeks . . . R. H. Edington is doing likewise at home in Knoxville . . . The department warmly welcomes W. Sweeten back after an illness.

TECHNICAL

Bob Orrison, Industrial Engineering's gift to the golfing world, also joined the Proud Pop's Club last week—little John Wiley Orrison putting in his appearance January 15 at Oak Ridge Hospital, weighing 10 1/4 pounds, to join two brothers and a sister in the family. Pop denies planning to enter the youngster in the "loudmouth" specie of the Y-12 Fishing Contest.

Development Operations wishes a speedy recovering to the wife of R. W. Phillips, of Aspen Development . . . Metallurgical Development rolled out the red welcome carpet last week for E. L. Goodwin . . . H. M. Heidt, SD Chemical Development, got a warm welcome personally but a cold one weather-wise on his return from a vacation spent at home in Tampa, Fla. . . Margaret Kirby, also of SD Chemical Development, was welcomed back to work after a month of illness.

Special Testing is hoping the hex is off the H. R. Gwinn family and that members soon recover from all their aches and pains—most recent ailments being measles and pneumonia . . . Bennie Houser is motoring to San Jose, Cal., for a two week's vacation with relatives . . . More paternity news—after an early January drouth of babies they are starting to jam up Oak Ridge Hospital—with W. H. Dodson reporting a fine seven-pound, eight-ounce daughter being born January 15 . . . Hospitality of the department is extended newcomer Jean Shelton.

Production Analysis extends a great big welcome to Morgan Carter . . . Get well wishes are speeded to Lillie Jenkins, out sick.

Over in Production Assay the D Shift knows now why Bill Haddix is wearing that great big smile—Mrs. Haddix has resigned her teaching position to join him here in Oak Ridge . . . The C Shift rushes to say it forgot to tell the Colyum that the Mattinglys took in the Sugar Bowl—maybe they just escaped from the flood of tears from U-T sympathizers in New Orleans.

Laboratory Operations is glad to have Frances Carden back after a recent illness.

MAINTENANCE

Research Services sends get well wishes to a host of ailing fellow employees—J. C. Price, W. L. Allen and C. C. Bowman and also to H. E. Scarlett's father-in-law, B. W. Beckham, ill in California. . . Here we go again—another new arrival and this time the Proud Pop is H. L. Simerly, whose six-pound, five-ounce daughter, Cynthia Rae, arrived at Oak Ridge

Hospital January 4. She will be called Cindy . . . Condolences are extended M. J. Dorscheid, whose aunt died recently . . . The department almost had to hire a brass band to properly welcome a platoon of newcomers arriving via transfer last week—roll call showed them to include E. J. Greeley, J. J. Gloson, C. W. Lunsford, E. E. Fields, R. H. Gassaway, J. E. Hammond, A. E. Stone, J. B. Strickland, W. E. Thomas, A. P. Waugh, L. C. Hargis, L. A. Mauk, E. G. Lassater, E. L. Boorn, S. D. Blessing, J. S. Kerns and L. H. Norman.

ALLOY

Helen Gombita, new Alpha Four reporter for the Colyum, inaugurates her contribution in fine style with the news that former reporter Joyce Myers has a sunny smile these days—her fiancé Bobby Powers, Beta Two, is out of Oak Ridge Hospital after a long stay. . . Lucky lad was H. L. Lemon, he vacationed in sunny Florida last week . . . Here's the latest dope on B Shift hunters—E. J. Delaney, R. H. McNabb, R. D. Schen, F. R. Castleberry and Carl Frazier, Sr., along with E. W. Forbes, Beta Two, went out rabbit hunting last week and brought home (they said) 27 bunnies, just three under par for the legal limit—some hunters, eh? . . . R. O. Bandy is among the vacationers who forgot to tell their whereabouts before departing . . . D Group extends condolences to Kenneth Martin on the recent death of his brother.

MECHANICAL OPERATIONS

D Mechanical Operations is SO glad that C. F. Peterson's volleyball team has begun a winning streak—of three straight—even overcoming that name of Splits, meaning Split Shifters . . . C. R. Bates is vacationing over in Jackson, Tenn. . . Floyd McKamey is spending his at home in Knoxville . . . C. V. Redding is reported to be shooting in the low 200s at the Harriman golf grounds.

Tim Watt, B Mechanical Operations, continues ill at Oak Ridge Hospital and the department and the Colyum hopes he will return to action soon.

General Machine Shop extends condolences to R. H. Bradshaw, whose daughter died January 14 at Oak Ridge Hospital . . . Get well wishes to E. L. Armstrong, Sr., a surgery patient at Oak Ridge Hospital . . . Likewise to the department's beloved Irishman, T. K. Bishop, Sr., still convalescing at his home in Powell . . . On the brighter side a warm welcome to C. S. Patty, who has returned to work after a long illness . . . Newcomer Paul E. Melton is welcomed to the roster.

CHEMICAL

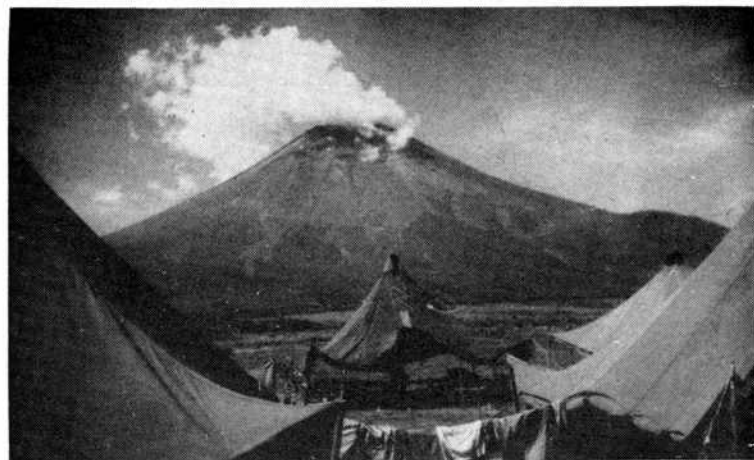

The Chemical Department just isn't going to be left out of all these here now paternity proceedings—here reports J. C. Nelson is glowing over the birth of a daughter, Patricia Kay, weighing six pounds, 12 ounces on arrival January 9 . . . Milo Ward chose Washington, D.C., for vacationing purposes and L. J. Alexander picked home in Alcoa.

Ol' Pal Charlie Smith, the Sage of Mechanical Operations, just got back from a boss sale somewhere with a nag. He found the animal wouldn't eat or drink, but hopefully says:

"By golly, I got a real bargain if he's a good worker."

Brrrr—it's thawing out and quitting time, so—see you next week, same page, same column location.

Remember—Only you can
PREVENT FOREST FIRES!

MT. FUJIYAMA, JAPAN'S SACRED VOLCANO, is one of the most photographed objects in the world—but is seldom seen over a foreground of a United States Army tent camp as it was snapped back in 1949 by W. V. Swing, of the Y-12 Chemical Department, and reproduced above.

Visit And Climb Of Japan's 'Mount Fuji' While On Army Duty Recalled By Y-12er

Like many other GIs of World War II, W. V. Swing, now of the Y-12 Chemical Department, did a lot of touring and sightseeing as a result of the conflict. In about four years of service with the regular army, Swing put in one long tour of Europe and two in the Far East.

During that time he took many interesting pictures of places visited—one being the famed Mt. Fujiyama, Japan's sacred volcano, visited as a shrine by many Japanese every year. Swing's outfit, the First Cavalry, was stationed at Camp McNair, at the foot of the mountain, four or five times on routine duty—on one tour of which he snapped the picture shown above.

Climb Requires Eight Hours

"Mount Fuji," as the GIs called the volcano, is 12,395 feet high and requires about eight to 10 hours to climb to the summit. The Japanese, Swing remembers, regard it as a sacred duty to climb Fujiyama once a year. Swing climbed to the top twice.

"I believe it is so, for when I was there the pass up the mountain was full of Japanese all the time," he said.

There are many shrines on the volcano, as well as 10 rest stations between the surrounding plains and the top of the mountain.

Coming Down Easier

Coming down "Mount Fuji" is a lot easier than climbing, Swing recalls, as the side of the mountain has a sort of "sand slide" consisting of clinkers and lava from the volcano. It is not exactly a slide, but the loose soil permits long steps to be taken along with some sliding that allows the descent to be made in about three hours.

The soldiers at Camp McNair fired on a range with the mountain as a backdrop, but no protests were raised by the Japanese on the use of their sacred shrine as a place in which to fire American bullets, Swing said.

'Simple Simon' Adventures To Show In Ridge Sunday

The adventures of Simple Simon will be presented by the Rockefeller Players next Sunday, January 27, in the Oak Ridge High School auditorium. The performance is sponsored by the Children's Theater of Oak Ridge and will be presented by a professional cast, directed by Lucille Rockefeller.

The play Simple Simon is by the well-known children's author, Aunand Harris. It is a story of a friendly fellow who visits an unusual country ruled by a willful tyrant queen where no one dares speak his mind and strangers are not welcome. Featured in the title role is Laurence Bourassa, seen frequently on TV where he has appeared in Omnibus (co-sponsored by Union Carbide and Carbon Corporation) and other productions.

Members of the cast and of the Shrine Club are selling tickets to the production and they also may be purchased at the door on the nights of the performances.

10 Years Service

Congratulations to the following Y-12 employees who will complete 10 years of Company Service within the next few days:

Millard F. Moore, Timekeeping, January 27.

Lawrence B. Huddleston, Tools, January 29.

WRONG STEWART LISTED AS PHOTOGRAPHY WINNER

The Bulletin had the wrong man identified as winner of third place in the Y-12 Weekly Photographic Contests for 1956 in the edition of January 16. The real winner of the third spot in the competition was J. H. Stewart, of Production Analysis, instead of J. T. Stewart, Health Physics, as printed in the paper. The Bulletin hopes this explanation straightens matters out.

PRIZE - WINNING SAUGER PIKE IN Y-12 FISHING CONTEST TOPS ALL EXISTING RECORDS

Y-12 Hoopsters Open Last Half

Wizards And Bombers Each Post Two Wins

The B Bombers, shareholders in the first half of the season title in the Y-12 Plant Basketball League; and the Wizards both posted a pair of victories in the opening games of the final portion of the schedule last week. The Sharpshooters, who deprived the Bombers of a chance for a clean first half decision by trimming them for their only loss of the season; broke even in their two outings, as did the C Hawks. The Wildcats, tied with the Bombers for first half honors and whose only loss was to that team; and the Rebels were idle.

Bombers Blister Hawks

The Bombers started off their proceedings with a blistering 46 to 24 triumph over the C Hawks, grabbing an early lead and holding it. Smith got 18, Chandler 15 and Baker eight points for the winners. Moore got 11 and Dail seven for the Hawks. The other Bomber win was a forfeit from the Cubs.

A big second period gave the Wizards a hard-fought 43 to 39 win over the Sharpshooters, who led the battle by 12 to 9 at the end of the first quarter. The Wizards rolled up a 15-7 margin in the second round and although the Sharpshooters had a one-point edge in the second half they couldn't overcome the victors. Hardin bagged 18 and Simmons 10 for the winners while Little with 11 and Malcolm with eight paced the losers.

The other Wizard triumph was a crushing 69 to 18 rout of the game Also Rans. The Whizzes got a 25 to 2 first period lead and continued to pour it on all the way. Hardin got 21, Fitzgerald 20 and Coleman 20 for the Wizards. Wright and Massengill each had six points to lead the losing quint.

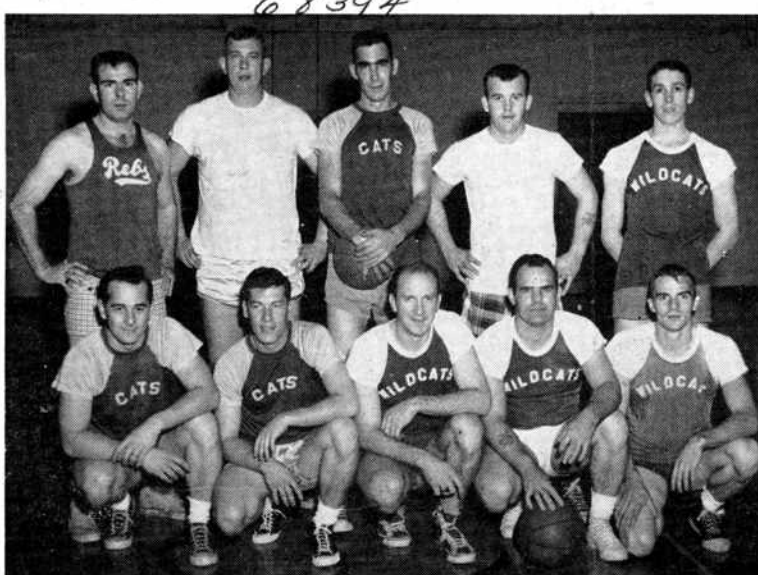

The Sharpshooters got an even break for the week by curbing the Cubs to the tune of 57 to 47 in an overtime engagement, the first extra-inning tilt of the season. The Sharpshooters piled up a 22 to 16 half-time lead as the result of a good second period, but the Cubs battled back gamely to tie it up at 46-all at the end of regulation time. In the three-minute extra session the Sharpshooters were just that while the Cubs couldn't buy a goal and the victors amassed 11 points to only one for the Cubs. Taylor's 20 points and 19 by Lawley paced the Sharpshooters. Little was high man for the game and for the Cubs with 21 points while Cheek bagged 17.

The C Hawks evened things up for the week by grabbing a 33 to 22 win over the conscientious but undermanned Also Rans, despite the fact that the latter team had a 7 to 4 first period lead and also outscored the Birds in the last quarter. Wright, Also Rans, was the game's highest scorer with 14 points and Hopkins got four for that team. Dail had nine and Moore six for the Hawks.

League standing and scores by quarters of games last week follow:

LEAGUE STANDING				
Team	W	L	T	P
Wizards	2	0	0	0
B Bombers	2	0	0	0
Sharpshooters	1	1	1	1
C Hawks	1	1	1	1
Also Rans	0	2	0	2
Cubs	0	2	0	2
Rebels	0	2	0	2
Wildcats	0	2	0	2

QUARTER SCORES				
Team	1st	2nd	3rd	4th
B Bombers	12	25	34	46
C Hawks	3	8	12	24
Wizards	9	24	34	43
Sharpshooters	12	19	28	39
Wizards	24	35	51	69
Also Rans	2	10	12	18
Sharpshooters	10	22	32	46
Cubs	10	16	28	46
C Hawks	4	17	27	33
Also Rans	7	7	12	22

TIED FOR FIRST PLACE at the end of the first half of the season in the Y-12 Plant Basketball League were the Wildcats, shown above. They lost only one game, to the Bombers, with whom the Wildcats were deadlocked and must meet in a playoff for the title. Top row from left are C. R. Mealer, Hobart Bartley, Jr., C. J. Hicker, B. G. West and Joe Dick. In front are E. H. Mayberry, D. L. Terry, Elmer Johnson, T. E. Monsey and J. W. Jones. Jake Steele, manager, was absent when picture was made.

Y-12 Bowlers To Be Gunning For Hart's Title In Tourney

Len Hart, two-time Y-12 bowling champion and also wearer of the Oak Ridge city keglering crown, will be the target of a horde of Y-12 pinmen in the annual Y-12 Bowling Tournament to be held Saturday and Sunday, February 9 and 10, at the Oak Terrace alleys. Title holders around Y-12 have had the uneasy experience of having to fight to retain their laurels and as the plant boasts of quite a few better than high average bowlers, Hart will be pushed to his best to retain his honors.

Last year Hart earned the title of Y-12 champion by posting a 1623 all events scratch score. He also had the best scratch singles series of 600 in the tournament. The best handicap all events tally was rolled by Hubert Tripp with 1813. Rudy Pletz had the top singles scratch game score of 221.

Tournament Prospects Bright

With the entry list beginning to grow steadily, prospects for a fine 1957 tournament are bright. Many of the bowlers who won titles last year will be back, although it had not been determined last week whether the same combinations would defend their honors this year.

The handicap team champions last year were the Has Beens, of the Classic League, with a score of 2885. The scratch champions were the Cannon Balls, of the now defunct All-Carbine League.

1956 Winners Listed

Herb Oliver and Frank Galford were the 1956 handicap doubles champions, posting a 1210 score. The scratch champions were Roy Roberts and Ernie Collins, with 1032. In the mixed doubles class Katie Williams and Charley Gillman were handicap champions with a 1199 score. Scratch title holders are Ruby O'Kain and J. D. Brown, who registered 922.

All entries for the tournament must be received at the Y-12 Recreation Department, Room 226, Bldg. 9704-2, by noon on Friday, February 1. Every entry must be accompanied by required fees—\$1 for bowling and \$1.10 for prize money. Bowlers wishing to bowl for trophies only may pay the bowling fee alone. A total of 50 trophies will be awarded first and second scratch and handicap winners in the various events.

Highways and graveyards are both crowded.

J. R. Cooter's Catch Weighed Six Pounds And Eight Ounces

Many Other Entries Win Prizes In Event

The daddy of all the sauger pike in the waters of the world, as far as all known existing records are concerned, was among the winners in the 1956 Y-12 Annual Fishing Contest. The big feller weighed six pounds, eight ounces, was 25 inches long and had a girth of 14 inches and was landed by James R. Cooter, of Product Processing on November 10 at Swan's Pond, the backwater behind the Tennessee Valley Authority steam plant at Kingston.

Fish Is Real Sauger

When the giant fish was first reported, there were questions raised as to its legitimacy as a sauger pike. However, all these doubts as to the purity of the breed have been dispelled by fishing authorities and the taxidermist that mounted the creature. Also, a search of wildlife and conservation publication authorities have failed to reveal a sauger ever caught to exceed the Y-12er's fish in weight and size.

Cooter used a live shad minnow as bait to lure his championship fish from its lair. He used a Zebeo rod, reel and six-pound test line. After a close check on measurements, the fish was mounted and now is on display at the West End Service Station in Oak Ridge—if any skeptics remain who wish to view the evidence.

Other Big Fish Landed

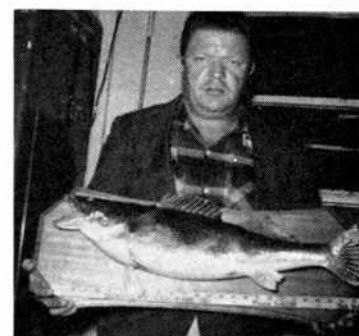

However, Cooter's sauger was not the whole story of the 1956 Y-12 Annual Fishing Contest, as Y-12 anglers caught quite a number of big finny specimens during the year to earn the fine prizes offered first, second and third place winners in the eight species of fish eligible for consideration. First prizes were spinning reels, second prizes were spinning rods and third prizes floating fishing nets.

For instance, the largemouth bass class winner was a seven-pound, 12-ounce beast caught by Glenn W. Ballew, Colex Operations. He was pushed by Robert B. Smith, Receiving, who reported an even seven-pound fish. The biggest fish in the contest was a yellow catfish weighing 33 pounds that won the rough fish division.

The complete list of winners in the 1956 contest follows:

LARGEMOUTH BASS	
G. W. Ballew, Colex Operations, seven pounds, 12 ounces.	Robert B. Smith, Receiving, seven pounds, 12 ounces.
SMALLMOUTH BASS	
Bruce A. Murr, Production Inspection, six pounds.	Only one entry.
STRIPED BASS	
Jack J. Hale, Product Processing, two pounds, 15 ounces.	Fred G. Leon, Mechanical, two pounds, 13 ounces.
Melvin T. Mustard, Alloy Maintenance, two pounds.	
WALLEYED PIKE	
Fred B. Guttery, Product Processing, eight pounds, nine ounces.	Elmer E. Green, Buildings and Grounds, four pounds, 13 ounces.
James L. Smith, Electrical Engineering, four pounds, nine ounces.	
SAUGER PIKE	
J. R. Cooter, Product Processing, six pounds, eight ounces.	W. S. Everett, General Utilities, four pounds, four ounces.
B. M. Jeffers, Product Processing, three pounds, 12 ounces, 21 inches long.	
CRAPPIE	
Walter Sherrod, General Machine Shop, three pounds, 11 ounces.	H. M. Monday, two pounds, 11 ounces.
Herbert Oliver, E Mechanical Operations, one pound, 15 ounces.	
ROUGH FISH	
S. L. Newton, General Machine Shop, yellow catfish, 33 pounds, four ounces.	Elzo Branam, B Mechanical Operations, drum, 18 pounds, two ounces.
R. E. Gibson, B Mechanical Operations, spoonbill catfish, 14 pounds, 12 ounces.	
TROUT	
Thomas E. Hillard, Reproduction, one pound, 15 ounces.	John B. Wright, Colex Operations, one pound, eight ounces.
Ralph Taylor, B Mechanical Operations, one pound, four ounces.	
NO BLUEGILL OR BREAM ENTERED	

The American "jack rabbit" is really a hare—it leaps several feet into the air to get a view of the surrounding landscape.

BIGGEST EVER CAUGHT is the description given by piscatorial authorities to the six-pound, eight-ounce sauger pike caught by Y-12er James R. Cooter, shown above with his victim nicely mounted for one and all to see.

Bumpers Bumped For Lead, Playoff In Classic League

Despite a stellar individual performance by Walt Sherrod, the Bumpers were given a pair of drastic bumps in the Classic League of plant bowlers last Thursday night at the Oak Terrace alleys.

By taking a three-point licking from the Rippers, the Bumpers not only lost undisputed possession of first place in the circuit but also the first third of season championship.

The two teams were tied at the end of the opening round and their head-on clash last week also constituted a playoff for the deadlock.

The Rebels continued their triumphant march with a three-point win over the All Stars and thereby gained a tie with the Bumpers for first place. The only whitewash win was posted by the Screwballs over the Cubs. Other three-point wins were by the Has Beens over the Tigers and Wolves over the Playboys. The Wasps and Swingsters ended up in a two-point each tie.

Sherrod burned up the alleys with a 256 scratch game, boosted to 281 with handicap, a 585 scratch and 660 handicap series. In team scoring the Bumpers rolled an 867 scratch game and were tied with the Screwballs at 1006 for handicap game. The Rippers' 2514 scratch series and Screwballs' 2945 handicap series were tops for the night.

League standing follows:

Team	W	L
Rebels	20	12
Bumpers	20	12
Screwballs	19	13
Rippers	19	13
Has Beens	18	14
Wolves	18	14
Playboys	17	15
Wasps	16	16
Tigers	12	20
Swingsters	12	20
Cubs	11	21
All Stars	10	22

10 Y-12 Lassies Want Exercise Class

Prospects for a women's class in physical conditioning and exercise for all feminine employees of Union Carbide Nuclear Company plants in Oak Ridge grew brighter last week and indications point to organization of the class within the next few days. Tuesday or Thursday night meetings have tentatively been set for class meetings.

A total of 10 Y-12 lassies last week indicated their intention of joining such a class if it is formed. The objective of the class is to provide an opportunity for healthy exercise through calisthenics and games. All Y-12 women employees desiring to join the class are asked to communicate with the Recreation Department, Room 226, Bldg. 9704-2, plant phone 7751.

Elmer Olson Bags Golfing Hole-In-One

It's a pretty good bet that a great majority of Y-12ers—particularly the old timers—and the golfers especially—know Elmer (Olson, that is). If anyone really wanted to find him in his spare time—all that would have to be done would be to go to the nearest golf course and yell:

"Where's Elmer?"

Elmer has been one of those 85-90 average golfers down through the years—but has never been able to attain that honor of bagging a hole-in-one. However, in a recent outing with some K-25 pals at the Oak Ridge course, he did it. It was a three-wood shot on No. 8, a 178 yard hole, that did it. Nearby, on the No. 11 hole tee, a foursome of Y-12ers—George Strasser, Bill Ebert, Bill Heckert and George Evans—witnessed the feat, and hurried over to congratulate Olson.

Olson for many years was a Y-12 employee but was transferred to Oak Ridge National Laboratory jurisdiction several years ago.

Another Whitewash Posted By Clippers

Who's going to clout the Clippers? That's the question going around in the Mixed League of Y-12 men and women bowlers as the Clippers rolled to their third straight whitewash win of the second half of the season by taking four points from the Pin Cats. The Oleos nipped the Nip and Tucks for three and the Scrappers socked the Knockouts by a similar margin. The Units added four points to their record through a forfeit.

In blanking the Pin Cats, the Clippers swept all team scoring tops for the night with 649, 819, 1815 and 2326 across the board. Tom Hillard, of the Scrappers, led the individual scorers with 201, 230, 510 and 597, but had to share a tie for the handicap series with Bob Morrow, Clippers.

League standing follows:

Team	W	L
Clippers	12	0
Scrappers	8	4
Units	8	4
Pin Cats	6	6
Nip and Tucks	6	6
Knockouts	4	8
Oleos	4	8

STILL FAVORITE MODELS for the Y-12 Weekly Photographic Contests are youngsters. For the week ending January 18 first prize went to T. H. Barton, Production Analysis, for the snapshot of his daughter, top, as "Miss 1957." Second prize went to Dave Alford, Beta Two, for his Halloween picture of "Dipping for Apples," shown at bottom.

B Shift Loop Ends First Half In Tie

The first half of the season in the B Shift Bowling League ended in a deadlock last week as the Ramblers edged into a tie with the Challengers for top spot by virtue of a four-point whitewash victory over the Alligators. The Challengers dropped one point and won three from the Seven Ups, costing them the title in one of the closest races ever waged in a Y-12 keglering circuit. In other matches last week the Bumble Bees were stung for four points for the second straight week, the stingers being the Crocodiles.

J. B. Peters, Challengers, had the best series scores of the night with a 512 scratch and 600 handicap. Gib Hatmaker, Bumble Bees, rolled a 198 scratch game and Jim McNabb, Seven Ups, a 219 handicap game for tops. The Seven Ups had a 785 scratch game, boosted to 997 with handicap, and a 2200 scratch series. The Challengers rolled a 2860 handicap series to get into the act.

League standing at the end of the first half of the season follows:

Team	W	L
Challengers	40	24
Ramblers	40	24
Seven Ups	38	27
Bumble Bees	33	31
Crocodiles	28	36
Alligators	13	51

Two Y-12ers Honored By City Organizations

Continued from Page 1

and Community Chest campaigns in Oak Ridge.

Bissell was elected to the council chairmanship to succeed Paul Arow, a former Y-12er, who resigned the post for reasons of health. Bissell himself was elected to fill a vacancy on the council last year caused by the resignation of Arthur Stewart.

Bissell also has been active in the work of the First Methodist Church in Oak Ridge, being a member of the board of stewards and of the church building committee. Both he and Flack are sports enthusiasts and Bissell once held the post he highly regarded of "bull pen catcher" on the Uranium Control Junior Varsity softball team of the Y-12 Plant Softball League. Flack restricts himself to the spectator status, with the exception of occasionally taking part in seasonal opening festivities of the Y-12 Plant Softball League.

Several Y-12ers Have Served

Over a period of years Y-12 has had several representatives on the Town Council, including Carl Cooper, Wage Standards Supervisor, who served as chairman several years ago.

Do Littles Boost Evening Loop Lead

The Do Littles team in the Evening Shift Bowling League added a point to its first place lead with a three-point win over the Gutter Ballers while the second place King Pins could only split even with the Sure Shots. The Alley Cats and Sure Shots also divided four points.

Rufus Knott and James Murray divided individual scoring honors. Knott had the best scratch scores of a 185 game and 505 series and Murray the top handicap tallies of 229 and 624. In team scoring the Alley Cats swept the boards with 769, 1030, 2085 and 2868.

League standing follows:

Team	W	L
Do Littles	41	19
King Pins	37	23
Alley Cats	33	27
Gutter Ballers	26	34
Hot Shots	22	38
Sure Shots	21	39

Be A 'Good Guest,' Hunters Are Urged

Hunters should be courteous and considerate of owners of farms over which they may seek game or they probably will be faced by the situation prevailing in Tipton County, in West Tennessee, where 27 farmers published official notices in a weekly newspaper that their land was posted against trespassing and specifically stated "no hunting." Many landowners have become embittered by depredations caused by a small minority of hunters who are thoughtless in thought and deed. When livestock and poultry are shot, gates left open and crops trampled, nobody can blame a farmer for posting his property. Being a good guest is as important on agricultural land as inside the owner's home. As a rule, the thoughtful hunter who asks permission to hunt and then conducts himself well will be invited to return.

D. H. FRIAR, A MECHANICAL OPERATIONS, is shown above with a fine catch of king mackerel at Panama City, Fla. The youngsters are his son and daughter who enjoyed the recent Florida vacation trip.

Former Y-12er Has Interesting Job As Head Of University Of Georgia Center At Albany

A former young Y-12er who established an excellent work record while here before leaving last summer to reenter the educational field, now is holding down an interesting job as director of the Albany, Ga., Center of the University of Georgia.

He is Earl F. Hargett, formerly a junior inspector of welding in the Mechanical Inspection Department of the Technical Division. He recently wrote J. Clyde Bowles, Mechanical Inspection Department Superintendent, to describe his new job and some of the problems faced in the work.

The Albany Center is a service of the Georgia Center for Continuing Education and is described by Hargett as somewhat of a substitute for a junior college. The Center provides undergraduate courses to all age levels unable to attend the university at Athens, Ga. The classes are taught by local people, Hargett says, who have master's degrees in their subject areas.

Referring to some of his early problems, Hargett wrote Bowles: "Being in a new community and situation we have many troubles that do not have pat answers."

Rides Wanted, Offered

Ride wanted or will join car pool from vicinity of Paint Rock Ferry Road, Roane County, to the North Portal, straight day. John Sinclair, plant phone 7459, home phone FRanklin 6-9925, Kingston.

Rider wanted from Washington Pike, Whittle Springs Area, Inskip and Norwood sections via Knoxville-Clinton Pike to East or Central Portal, straight day. W. L. McCormick, plant phone 7302, home phone 2-5207, Knoxville.

Car pool members wanted from Harrell Hills or Broadway section, Fountain City to Central Portal, straight day. M. N. Ward, plant phone 7009, home phone 6-6553, Knoxville.

Riders wanted from West Haven on Oak Ridge Highway to East or North Portal, straight day. W. T. Bradshaw, plant phone 7-8308, home phone 5-4498, Knoxville.

Riders wanted from North Central St., Oakwood Section, Knoxville, via Schaad Road and Oak Ridge Highway to East, Central or West Portal, straight day. Dora Hurst, plant phone 7-8382, home phone 4-4964, Knoxville.

Two car pool members wanted from Harriman to West Portal, J. Shift. H. J. Cole, plant phone 7573, home phone 2262-W, Harri-

man. Neither do I have a nice big set of specifications of written procedures to refer to. Many times I have turned around to yelp for help—only to realize I am the help and have to formulate some kind of answer alone."

Hargett was born September 8, 1924, in Mississippi. He graduated from Florence State College, Ala., and received his master's degree from Peabody College in Nashville, majoring in education at both institutions. He had been doing graduate work at the University of Tennessee. He is married and has four children.

He came to work in Y-12 on November 28, 1955, and during his tenure in the plant won many friends through his courtesy and efficiency on the job. As a result many Y-12ers wish him well in his new endeavor.

Murderer's Row Leading C League

Murderer's Row mauled the previously high-flying Rusty Five for a four-point whitewash in alley activities of the C League of bowlers last week to take over first place in the loop. Three-point wins were posted by the Engineers over the Cards and Q Balls over the Hornets while the Sooners and Deltas rolled to a deadlock.

Clyde Wade, Deltas, had the best single game scores with a 198 scratch and 243 handicap effort. W. Williams, Q Balls, rolled a 502 scratch series and W. C. Brewer, of the same team, a 595 handicap series.

League standing follows:

Team	W	L
Murderer's Row	12	4
Rusty Five	10	6
Engineers	10	6
Sooners	8	8
Deltas	7	9
Cards	6	6
Hornets	6	6
Q Balls	5	11

Hawks Easy Winners In Volleyball Loop

The first half of the Y-12 Plant Volleyball League was concluded last week with the Hawks finishing far out in front with a record of 24 points won against only one loss. They did not play last week and other teams fought it out for the lower positions in the standings. The second half opened Tuesday night of this week.

The Spliffs turned in a two-out-of-three triumph over the Beavers, rallying to win the final game after the match had been squared at one-all. The Sooners also buried the Beavers under a two-straight game win.

League standing at the end of the first half of the season follows:

Team	W	L
Hawks	24	1
Hunters	17	7
Spliffs	10	14
Sooners	6	18
Beavers	4	20
